# HAPPY NEW YEAR-1995

Of all God's children  
I have the purest heart  
With innocence and faith,  
I walk in Love's protective light.  
By giving of myself freely  
I am richer and twice blest.

Bonded to all mankind by  
Common fellowship,  
My goodwill is universal  
And knows no bounds.  
I AM THE BOAR.

— THE BOAR —

see sheet of 4

I set new trails ablaze; I seek the unattainable,  
And try the untried. I dance to life's music  
In gay abandon. Come with me on my carousel rides,  
See the myriad of colors, the flickering lights,  
All hail me the unsolicited performer.

THE Curtiss-Wright "Coupe" was a forerunner of the all-metal cabin type aircraft that would replace wood and canvas planes after World War II. Equipped with a 145 hp 7-cylinder air cooled radial engine, it could reach a top speed of 150 mph, with a cruising speed of 130 mph.

# Aircraft OF THE FORTIES

THE smallest of the twin-engined Grumman flying-boats, the Widgeon was used as a submarine spotter by the Navy and Coastguard during World War II. Its two 200 hp in-line engines could take it to 165 mph, and maintain a cruising speed of 145 mph.

2000 MILLENNIUM 2000

### BREAKTHROUGHS IN MODERN MEDICINE ~ 100 YEARS

The year 2000 dawns upon us almost as a double-edged sword. Time is a phenomenon that makes man all too aware of his vulnerability. Depending on the focus, time can encourage and create optimism, or it can bring us to the realization that we are mere specks in the universe with little or no permanent value.

Great people have been born into this world with a mission and a purpose. Their ultimate goal ~ to have an influence on the world and shape it.

As we reflect back on the 1900's, we see the faces of those heroes that changed the face of the world in the realms of art, architecture, economics, medicine, sport and many other areas of life as we know it. We ride forward into the coming Millennium with the chariots of these masters of the past hundred years.
