Elvis Presley

ELVIS REMEMBERED

FOREVER YOUNG, FOREVER ENTERTAINING

A Philatelic Memorial Tribute from the Federated States of Micronesia
Unveiled at the California State Fair - August 15, 1997

04968

Elvis Aaron Presley was born on January 8, 1935, in Tupelo, Mississippi. And the rest, they say, is Entertainment History. From his teenage years until his death on August 16, 1977, Elvis Presley loved music and loved to entertain. Through his music, movies and live concert and television performances, Elvis won over millions of fans worldwide. Probably even more beloved and popular today than in his all too-short life, Elvis is still the King of Rock & Roll - the most celebrated and influential entertainer of the twentieth century. Elvis's vitality and charisma, like the spirit of his music, will doubtless live forever.

Ocean Exploration

EXPLORING THE OCEANS PIONEERS of the DEEP

08340

© 1997 FSM POSTAL SERVICE

DESIGNER: LLOYD BIRMINGHAM

British oceanographer C. Wyville Thomson sailed around the world on H.M.S. *Challenger* exploring the oceans from 1872 to 1876. He caught the first animals taken from a 2½ mile depth, using deep-sea dredges.

In Memoriam
Jacques-Yves Cousteau
1910-1997

Jacques Cousteau was this century's great environmental prophet and father of modern underwater research. His early invention and development of the aqua-lung diving apparatus and process for using TV under water led to our ability to live and work extended periods at great depths; his many books, films, and TV programs brought the world into our living rooms. He also concentrated on saving underwater environments. His last project was the 100-ft. long *Alcyon*, the no-salt sailboat built for filming and research expeditions.
