The carriage of mail by air to Trinidad started in 1927 and was brought by the United States Air Force. The first airmail delivered by a commercial aircraft commenced two years later on 22 September, 1929. The Pan American flight to Port of Spain left the USA on 19 September, stopping at Puerto Rico and some of the West Indian Islands.

The aircraft, a twin-engine "Sukorsky S-38" seaplane was piloted by the famous Col. Charles A. Lindbergh. The historical event of Col. Lindbergh being greeted by the Postmaster General after he had delivered the bag of airmail is shown on the 35 cent stamp. Most of the airlines which now operate from Piarco Airport deliver airmail to and from Trinidad.
